Stadium Construction All summer we will be working on the stadium and we will have it completed in August. Work will begin in June after school gets out. The project will begin with excavation, concrete work, electrical and other preparation work. The Oregon Air National Guard will be constructing the stadium starting the last week of July with the goal of completing the entire project by mid-August prior to the start of football practice. We have many, many volunteers jumping in to help starting as early as June 10th and continuing through the summer. We will also need your help, so please drop us an email (info@jefflucasmemorial.com) to find out about how you can help. In addition to skilled help, we will have several community work days throughout the summer so please send us a note so we get you on the list to help. If you can't come out and help, please be sure to participate in our commemorative brick program. You can buy a brick to support our efforts, but you can also commemorate a friend or loved one. On September 4th, before the first Corbett High School football game, we will have a dedication ceremony. This will be a very special day and we hope you can join us. Please mark your calendars now. Thank you for your continued support! Sincerely, **James**
